SOFT SKILLS

- Able to contribute to the creation of a peaceful work environment;
- Adaptability: I can adapt to different workflows to achieve a common goal;
- Creativity: I thrive on being intellectually stimulated, which leads me to always try to find original solutions to problems;
- Keen to learn: I think learning is the most important purpose in life, so I search for a workplace in which I can learn a lot, but also in which I can share my knowledge with humbleness.
